Magnum™ Liners

THE ONLY CHOICE
FOR YOUR COWS

Consistent, even milk-out from quarter to quarter, milking after milking, day after day.

- **Patented mouthpiece design** – Reduces mouthpiece vacuum and results in fewer teat rings and faster milkout
- **Tapered barrel with graduated wall thickness** – To fit different teat sizes and optimize teat end massage
- **Special ribbed barrel** – For improved liner integrity and consistent milking performance
- **22 percent more rubber compound** – For longer life and reduced liner twisting
- **Patented Jet-Vent™** – Eliminates clogging of foreign material and debris
- **Patented progression in lip thickness** – Less ringing on teats through lower mouthpiece vacuum

Yes, you can have the best of both worlds! Magnum Liners bring both cow comfort and unparalleled milking performance to your dairy.
