COW ACTIVITY & HEALTH MONITORING SYSTEMS

*Much more than activity.
BouMatic RealTime+
Health Monitoring Solution
allows you to know your
cows' activity, feeding,
walking and laying
down behaviors, with neck
and leg models available.*

A health snapshot of your cows on time, anytime.

- **Activity** – Ability to identify cows requiring attention for servicing or for potential preventive health treatment
- **Two Ranges** – In barn antenna reads any tag within 150 ft (50m) for use in barn or central location; Long Range antenna reads any tag within 3000 ft (1000m) great for dry/open lot and pasture-based farms
- **Eating time** – Monitors additional animal health parameters in relation to their feed intake behavior
- **IDs anywhere** – There is no need for the animal to walk through a parlor ID portal making it ideal for heifers and dry cows
- **Advanced herd management** – SmartDairy® combined with HerdMetrix™ provides you flexibility in the reporting to tune it to your own management style
- **Accessible** – NEW BouMatic HerdMetrix™ phone app makes data accessible anywhere, anytime
